SERVICE RANGE

HAFNER

OUR SERVICE RANGE

We design and manufacture customized durable and precise solutions in the field of production measurement technology. Our product range starts with simple manual measuring equipment through to fully-automated measuring systems. Our machines are optimally aligned to our customers' specific requirements.

Special measuring machines

- | Core competence: tactile measuring systems for the following workpieces
- | Additional functions such as labelling, crack detection and sorting

Our service range

- | Consulting and planning support for new investments and modernization
- | Training and commissioning
- | Support during start-up phase
- | Maintenance and service

Other main areas

- | Optical and pneumatic measuring systems
- | Assembly measuring technology / functional checks
- | Classification for transmission, axle and steering components

Standardized gauge parts

- | Angular heads / extension insertions
- | Measuring slides
- | Measuring inserts

Axle and steering parts

- Steering gear housings
- Gear racks
- Steering nuts
- Steering pinions
- Wheel carriers
- Wheel flanges
- Brake discs
- Struts

CV joints

- Joint housings
- Ball bearing cages
- Ball hubs

Motorparts

- Turbine casings
- Bearing housings (turbo)
- Compressor wheels
- Con rods
- Engine blocks
- Camshafts
- Pistons

Transmission parts

- Differential housings
- Bevel drive pinions
- Switching groups
- Shift forks
- Synchroniser rings
- Sliding sleeves
- Shafts
- Gears
- CVT-transmission parts
- Transmission housings
- Axle housings

Wheels/rims

- Steel rims
- Alloy rims
- Wheel discs
- Rim rings
